PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in full-stack development using React, Next.js, Node.js, Express.js, MongoDB, and MySQL. Built and deployed multiple web applications involving real-time collaboration, AI integration, and cloud technologies. Currently working as a Cloud Consultant Intern, gaining experience in client engagement, requirement analysis, and cloud-based solutions. Strong foundation in software development, problem-solving, and modern development practices. Seeking opportunities to contribute to innovative teams while building scalable and impactful technology solutions.

EXPERIENCE

Cloud Consultant Intern — Mist Avinya Technologies LLP, Noida

Dec 2025 - Present

- Engaged with clients to understand business requirements and recommend suitable cloud-based solutions.
- Conducted requirement-gathering discussions and documented client needs for technical teams.
- Assisted clients in understanding AWS cloud services, deployment options, and infrastructure best practices.
- Coordinated between clients and engineering teams to ensure smooth communication and project execution.
- Supported cloud adoption initiatives by providing consultation on service selection, scalability, and cost considerations.

EDUCATION

B.Tech, Computer Science Engineering — Chitkara University, Punjab

Sep 2022 - Aug 2026

CGPA: 7.81

TECHNICAL SKILLS

Languages : Java, JavaScript

Frontend Technologies : HTML, CSS3, React.js, Next.js

Backend Technologies : Express.js, Node.js, RESTful APIs, Drizzle ORM

Databases : MySQL, MongoDB

Cloud & DevOps : AWS (EC2, S3, IAM), Docker, GitHub Actions

Tools : Git, GitHub, Excel, Postman, Microsoft Suite

PROJECTS

CompileX — Online Collaborative Compiler | [compilex-1.netlify.app](#)

- Built a multi-language (5+) online compiler with real-time WebSocket-based collaboration and low-latency multi-user sessions.
- Integrated WebSockets to enable low-latency, multi-user collaborative coding sessions.
- Automated build, test, and deployment pipelines using Docker and GitHub Actions, significantly reducing manual deployment effort.
- Tech Stack: React · Node.js · Express.js · MongoDB · WebSockets · Docker · GitHub Actions

MediConnect — Healthcare Communication Platform | [medi-connect-k.netlify.app](#)

- Developed a HIPAA-conscious web application enabling seamless communication between patients and healthcare providers.
- Implemented real-time messaging and video call features to reduce provider response times.
- Streamlined appointment booking workflows, improving overall user experience and scheduling efficiency.
- Applied security best practices to protect sensitive patient data in compliance with healthcare regulations.
- Tech Stack: React · Node.js · Express.js · MongoDB

PrepAI — AI-Powered Exam Prep Platform | [prep-ai-tau.vercel.app](#)

- Built an AI-powered exam prep platform capable of auto-generating and evaluating questions across 10+ academic subjects.
- Automated answer evaluation to improve grading accuracy and eliminate manual marking effort.
- Leveraged the Gemini API to optimize question generation speed and relevance.
- Tech Stack: Next.js · NeonDB · Drizzle ORM · Clerk · Gemini API

ACHIEVEMENTS

- Solved 100+ DSA problems on LeetCode — strong foundation in algorithms and data structures.
- Open-source contributor: Hacktoberfest & Social Winter of Code.
